- 24** Younger Monument

Formal Garden from the hill.

Welcome to Argyll's Magnificent Mountainside Garden

In the woodland setting of the Eachaig Valley lies Benmore, a Garden famous for its magnificent trees and shrubs, including the spectacular Redwood Avenue. Its collection of rhododendrons is one of the finest in the world, with over 320 species represented.

Explore

The orange Easy Access Route is predominantly level and is suitable for wheelchairs and buggies.

All other parts of the Garden are hilly, rising towards the Viewpoint, with many steep and stepped paths, all of which afford spectacular views through the plantings and to the rugged countryside beyond.

As you explore the 150 acres of exotic plantings, look out for a rich representation of native species, from flowering plants to ferns, mosses, fungi and lichens and the abundant wildlife that they all support.
