*As you would expect, Greentours wants to keep our planet green! We therefore recommend you offset your carbon emissions of your flights with Forest Credits. This is based on one person's return flights. To keep it simple we have banded average values for flights as follows: Short haul £5 (Europe, Turkey, and the Mediterranean), medium haul £10 (Central Asia, East Africa, India and Canada) and the rest of the world £30. See page 140 for more details on Forest Credits.
